

**RECUPERADORA DEL CABLE Y GESTION DE RESIDUOS, S.L. (REDELCA)** is a company dedicated to the recovery of metallic materials, mainly copper, bronzes, brass, and aluminium, using waste that we recycle, value and recover, to transform them into raw materials and reuse them nationally and internationally.

**REDELCA** is a pioneer in this sector of metal recovery through mechanical processes. Since the seventies, when we started for self-consumption and currently transform for ourselves and for third parties. Since 1993, we have continuously invested in the future, improving our facilities to increase our production capacity, and our agility and flexibility in the production process, improving yields in crushing, and making many efforts to reduce the environmental impact generated by industrial activity. Likewise, the search for the best supply sources at the source to ensure an excellent quality product.

The Policy declaration includes the following guidelines:

1. Comply with legal requirements and other requirements. Satisfy the explicit and implicit requirements, criteria, and expectations of our customers, evaluating and applying these requirements.
2. Disseminate at all levels of our structure the Quality and Environmental objectives and criteria.
3. Implement quality and environmental indicators, as well as monitor their progress, so that we can know and ensure the desired service and level of quality.
4. Develop continuous training programs to improve the qualification of our workers, thus involving all personnel in achieving all the objectives established in this document.
5. Protect the environment, prevent pollution, and minimize the real or potential impact on the environment, mainly on our significant environmental aspects such as energy consumption and emissions to the atmosphere.
6. Develop and improve current activities with an emphasis on energy and natural resource savings, as well as the minimization of solid, liquid, and gaseous effluents as a philosophy of pollution prevention and commitment to improving environmental performance.
7. Adopt responsible practices in our waste recycling activity in line with the Sustainable Development Goals (SDGs) established by the United Nations.
8. Consolidate the continuous improvement process in the fulfillment of the activities carried out.

REDELCA's management makes this policy accessible and makes it available to its customers, employees, suppliers, and stakeholders. The Policy is kept up to date through periodic reviews, coinciding with system reviews by management, in order to take into account changes in environmental conditions and information received. In this regard, the new management provides and will provide all the human, technical, and economic means necessary to achieve the objectives set.
